## About Me

I am a computer science student self-taught front-end developer with a passion for learning and creating beautiful and user-friendly web applications. I have been working as a front-end developer for the past two years and have a strong understanding of HTML, CSS, and JavaScript. I am also proficient in React.

I am always looking for new ways to improve my skills and knowledge. I am an active member of the open-source community and contribute to several projects on GitHub. I also attend conferences and workshops to learn from other developers.

I am a hard worker and I am always willing to go the extra mile. I am also a team player and I enjoy collaborating with others.

I am seeking a challenging and rewarding opportunity to use my skills and knowledge to create innovative web applications.
